

Curso: Motivational English for in and outside the classroom

JUSTIFICACIÓN

The Servicio de Innovación y Formación del profesorado de la Secretaría de Educación de la Junta de Extremadura has been developing training courses aimed at strengthening the creation of bilingual contexts in the region's education centres. This English language training course has therefore been set up for teachers with previous knowledge of English at B2 level or higher to build on their linguistic skills.

OBJETIVOS

- Use, update and improve your English in totally communicative sessions
- Share ideas and work together to build up new classroom dynamics
- Discover interesting ways for you and your students to be in contact with English outside the classroom
- Gain an enjoyment of the language and culture which you will be able to pass on to your students
- Feel more and more relaxed and confident using English in and out of the class.

CONTENIDOS

- English conversation, culture and media.
- Classroom activities and ideas.
- Using English outside and inside the classroom.

METODOLOGÍA

As this course is totally practical and communicational, teachers will have to participate actively. If the teacher is motivated to use and strengthen their English, and enjoys doing so, this will help pass on this spirit to the classroom and the students. The listening and speaking activities will deal with pedagogical themes as well as current affairs and topics of general interest, while we will also have brainstorming and exchanges of ideas on how best to practise reading and writing skills for the classroom too.
